

# CANINE REMEDIAL MASSAGE & REHABILITATION PRACTITIONER COURSE

## PRACTICAL DATES 2024

*Choose your practical days to fit in with other commitments.*

*Please discuss any specific requirements or queries directly with your tutor.*

### Planning your practical days –

- Choose from the dates below to fit the practical days around your other commitments.
- Download the pdf so that you can manage your practical dates.
- Inform your tutor of the practical dates you plan to attend within 10 days of the start date to ensure the date is available. (Refer to the Your4legs Cancellations and Refunds Policy)
- Ensure any practical dates you can no longer attend are cancelled prior to 3 days before the date of the practical day to avoid the risk of incurring any additional costs. (Refer to the Your4legs Cancellations and Refunds Policy)
- Make sure you attend the 3 compulsory lectures and 9 therapy practical days – *see below.*

### NOTE – COMPULSORY LECTURES:

- There are options to attend live zoom sessions for the 5 compulsory lectures if you have to travel a long distance from within / from outside the UK.
- If attending compulsory lectures by live zoom, this will be classed as half a practical day.

| Compulsory lecture subjects and tutored practical days   | Number of lectures / practical days |
|--|-------------------------------------|
| <b>Gait and static assessment lecture and practise</b><br>Supports home study block 1<br>Key learnings = details of the therapy process from initial client contact and veterinary approval through to aftercare advise. Understanding the importance of gait and static assessment and learning an assessment process.  | 1                                   |
| <b>Musculoskeletal and nervous system lecture</b><br>Supports home study block 2<br>Key learnings = the anatomy and function of muscles, tendons, ligaments, fascia, bones and joints, the canine skin and nervous system and how these systems work together.   | 1                                   |
| <b>An introduction to illnesses, injuries and conditions and rehabilitation</b><br>Supports home study block 3<br>Key learnings = common conditions, illnesses and accidents based on canine breeds, conformation and activities. Covering the veterinary diagnosis and the healing process. Introducing key exercises and tools for supporting canine rehabilitation. | 1                                   |
| <b>Therapy practical days</b><br>Key learnings and practise = the entire therapy process from taking case history, gait and static assessment, therapy techniques and routine, completing therapy session sheets and feedback to the client.   | 9                                   |
| <b>Total number of practical days including compulsory lectures</b>  | <b>12</b>                           |
